

ELKAY[®]
ezH₂O 

ezH₂O[®] BOTTLE FILLING STATIONS

Cleaner, Healthier Water

Drinking Solutions for Every Application

Our drinking water products are designed to meet or exceed your needs and specifications. Elkay® has a wide variety of bottle filling stations and water coolers that comply with adult or child ADA standards, as well as models that offer the added assurance of our WaterSentry® filters.

We offer products for
any space and industry,
indoors and outdoors:

Made in the USA

Many of our products are made in the USA and comply with the Buy American Act. Check individual product listings for more information.

Shown on cover

Top: LZO8WSLK Bottle Filling Station with Single Cooler; Bottom-left: LK4400BFFRKBLU Outdoor Bottle Filling Station; Bottom-right: EZWSSM Bottle Filling Station

On Wall

ezH2O® Bottle Filling Stations

ezH2O® units have great features to provide convenient, sustainable and healthy hydration.

Hands Free

Sensor activation and bottle rest platform provide users with a touchless bottle filling experience.

Minimal Splashing

Dispenses a clean, laminar flow of water so there's minimal splashing.

Filter Status Lights

Colorful lights indicate when filter needs changing so you always know you're getting filtered water.

Antimicrobial Protection

Inhibits the growth of mold and mildew.

Real Drain

The basin includes a real drain system to help with drainage and eliminate standing water.

Quick Fill and Laminar Flow

Fill rate is 4.1 LPM for refrigerated units and 5.7 LPM for non-refrigerated units.

Green Cooler Combo

Our EZ green family offers the features you have come to know with Elkay such as the Flexi-Guard® StreamSaver™ water efficient bubbler and push-bar operation while including our energy-efficient refrigeration system.

Vandal Resistant

For high-traffic applications such as education facilities or indoor recreation areas. Full stainless steel construction is not only durable, but easy to clean. Comes with vandal-resistant bubbler(s) and push-button activated bottle filling station. Non-filtered versions are rated for outdoor use.

Vandal Resistant Green Coolers/ Cooler Combos

The vandal resistant green units are energy-efficient cooler combinations.

Vandal Resistant Bubbler
Chrome plated with integral hood guard design to prevent contamination from other users, airborne deposits and tampering.

LMABF8WSSK

Mechanically-activated Cooler Combos

Convenient hydration along with a mechanical cooler so water is always available. Mechanically activated push bars on both front and sides operate during power disruption.

On Wall

Surface Mount

Can be used in locations with limited wall depth or in conjunction with a fountain or remote chiller. Available with electric display and available in a mechanically activated version with battery-powered Green Ticker and visual filter monitor.

Models

LZWSSM

Sensor-activated design.

LMASMB

Mechanical push button for areas where electric is not available.

ezH2O® Refrigerated Surface Mount Bottle Filling Station

Chilled Drinking Water, Where You Need It

Enjoy the same great experience you've come to expect from our ezH2O bottle filling stations with our refrigerated surface mount units. Chilled water is dispensed from this bottle filling station to deliver a truly refreshing solution.

LZ8WSSSMC

Models

EZ8WSSSMC

LZ8WSSSMC

EZ Retrofit Bottle Filling Station Kit

Available in filtered or non-filtered models.

LMABFWS-RF / EMABFWS-RF

•Compatible with mechanically activated cooler models with EMA/LMA

For more information on compatibility:
[Elkay retrofit bottle filling station compatibility guide](#)

EZWSRK / LZWSRK

•Compatible with cooler models starting with EZ/LZ

Custom, Hands-free Water Delivery

When your needs for water delivery go beyond the norm, Elkey's got it covered. In addition to our standard hands-free portfolio, we can construct no-touch, sanitary, sensor-activated bottle filling stations to meet your specific needs.

LZ08WSSK

LZOTL8WSSK

LZOOTL8WSSK

ANTIMICROBIAL PROTECTION

Special silver ion antimicrobial protection on key plastic components to inhibit the growth of mold and mildew.

SEE BOTTLES SAVED

Exclusive Green Ticker™ informs user of the number of 590 ml plastic bottles saved from waste by using refillable bottles at the bottle filling station.

HANDS-FREE OPERATION

Touchless, sensor-activated bottle filler and bubbler are designed for easy hands-free use.

3,000 GALLON CERTIFIED FILTER

Filter is certified to NSF 42 and 53 for lead, Class 1 particulate, chlorine, taste and odor reduction.

VISUAL FILTER MONITOR

LED filter status indicator alerts to when filter change is necessary.

Floor Mount

Hands Free

This model of bottle filling station is convenient and can be installed anywhere that has a water supply and drain.

Its traditional floor mount design allows for freestanding or wall-mounted installation.

Model

DSSBF85

QUICK AND EASY INSTALLATION

Easily replaces existing 115V EFA and LAFE style water fountains by adjusting to the space, water supply, drain and electrical connections.

HANDS FREE ACTIVATION

Touchless sensor activation provides fast, clean filling for reusable bottles.

Architectural Bottle Filling Station Combinations

Flush with wall for a seamless look, our SwirlFlo® and Soft Sides® architectural fountains paired with in-wall bottle filling stations are ideal for office buildings, hospitals and indoor recreational facilities. Product available to pair with architectural units or with a remote chiller. Available in filtered and non-filtered, refrigerated or non-refrigerated models.

Architectural Fountains With Integral Bottle Filling Stations

The sleek design of our architectural fountains integrated with an ezH2O bottle filling station provides a complete, in-wall water delivery solution.

Retrofit an Existing SwirlFlo® or Soft Sides® Fountain

Retrofit kits convert your existing SwirlFlo and Soft Sides architectural fountains into bottle filling station combinations.

Bottle Filling Stations
The ezH2O can be installed alone or with architectural fountains.

SwirlFlo

Sleek styling enhances all architectural types, whether classic or cutting edge.

Soft Sides

Softly rounded corners and contoured basin provide a splash-resistant surface.

ezH2O Liv® Water Dispensers

Deliver cleaner, healthier water in a sustainable way with ezH2O Liv® water dispensers. Available in two configurations — Liv Pro for commercial use and Liv for residential use — this sleek in-wall solution provides eco-friendly filtered water on demand. Designed to fit seamlessly virtually anywhere, this stylish water delivery solution requires a small footprint but delivers big results: cleaner, healthier drinking water.

Seamless Design

Fits within the width and depth of two wall studs near water and electric. Includes drip tray with optional drain connection; can connect into existing water line. Fits into new and existing spaces.

Bottles Saved

Backlit LED Green Ticker counts the number of disposable, single-use plastic bottles served without the plastic bottle waste.

Sensor Activated

Hands-free filling with automatic timed shut off to help prevent accidental spills and messes. Safety lock setting prevents unsupervised use.

Filtered Water

Filter is tested and certified to NSF/ANSI 42 and 53 for the reduction of lead and other harmful contaminants. Filter status lights indicate when the filter needs to be replaced.

Residential: 750-gallon filter

Commercial: 3,000-gallon filter

Convenient and Sustainable

Self-serve design allows people to help themselves to refreshing water, at home or in commercial spaces, in an eco-friendly way.

Chiller Option

Unit can be installed with or without a chiller. See product page for details.

Outdoor

Outdoor Tubular Bottle Filling Stations and Fountains

Our outdoor tubular bottle filling stations and drinking fountains offer attractive, long-lasting durability to withstand tough weather conditions. The strong exterior is made from Type 316 stainless steel — standard on all Elkay outdoor tubular models. They are built for busy areas such as parks, pools, golf courses, and school and work campuses.

Vandal Resistant

Vandal-resistant push buttons, bubblers and screws.

Sealed Freeze Resistance

Freeze-resistant models feature completely enclosed and sealed valves to keep water safe from contamination.

Quick Fill and Laminar Flow

Fill rate is 3.8 LPM. Fills bottles faster than a standard drinking fountain. Laminar flow produces a clean fill with minimal splash.

Type 316 Stainless Steel

Increased corrosion resistance makes this product ideal for high-saline environments such as coastal regions and outdoor areas where de-icing salts are common.

Foot Pedal Accessory

Convert outdoor bottle filling stations to hands-free units with this easy-to-install foot activation pedal. Order with a new unit or retrofit an existing one.

LK4409BFBLU

Wall-mount Models

With industry-leading construction, Elkay tubular wall-mount fountains and bottle filling stations are ideal for public spaces with high-traffic areas such as schools, parks and commercial buildings.

Single-line installation makes these units a great choice when upgrading or replacing older fountains. One waste line means these units are simple to maintain.

Water Filtration

Elkay offers a complete line of water filtration solutions, which are conveniently installed where drinking water is used.

Our reliable and sustainable water filters are NSF/ANSI 42 and 53 certified to reduce lead and other harmful contaminants. This allows you to deliver cleaner, healthier drinking water wherever you need it.

WSP35000

WaterSentry 130,000 Liter Bacteria Water Filtration System

- Offers up to 10x the capacity of standard bacteria filters, making it perfect for high-traffic areas
- Includes sediment pre-filter with a nominal grade of 10 microns, prolonging the life of your filtration system
- Uses carbon-block technology and a filter membrane to remove the following through microfiltration:
 - Bacteria and total coliforms
 - Taste
 - Odor
 - Chlorine
- This system complies with the Official Mexican Norm NOM-244-SSA1-2008 and was tested by a third party laboratory authorized by COFEPRIS

51300C

WaterSentry® Plus 51300C

- 11,000-liter capacity equates to more than 22,000 water bottles filled¹
- Quick-disconnect, 1/4 turn makes installation and replacement easy
- Automatic inlet shut-off valve closes when filter is removed to minimize spills
- Filter media is self-contained, providing a more sanitary replacement process
- Recommended replacement is every 11,000 liters or one year after installation
- For use with most Elkay ezH2O bottle filling stations

NSF/ANSI 42 for chlorine, taste and odor, and particulate Class I reduction, and NSF/ANSI 53 for lead reduction²

¹Capacity may vary depending on local water conditions. Water bottle based on 590 ml per bottle.

Certifications

Elkay is committed to offering high-quality plumbing products. In addition to continually testing our products to high internal standards, many of our products are tested and certified to one or more of the following independent certifications:

Please visit elkay.com/international to view certifications for individual products.

Affiliates

We are a proud member of the following associations:

Elkay's Savanna, Illinois plant is ISO 9001 registered.

Many Elkay products offer accessibility to persons with disabilities when properly installed.

Recycled Content

At Elkay, we believe in doing our part to help sustain the earth's natural resources. Our products are manufactured with recycled content whenever possible. The amount of recycled content varies by product.

The Right Choice for Your Drinking Water Needs

For more than a century, Elkay has been dedicated to engineering award-winning products that are built to last. As an industry leader, we stand by our customers, committed to fulfilling your drinking water needs.

Here's why companies choose us as a trusted partner:

Expansive Portfolio

We have drinking water solutions to fit every budget and installation requirement:

- Hands-free bottle filling stations
- Single and bi-level coolers and fountains
- Countertop and built-in water dispensers
- Vandal-resistant units, great for outdoor and school use

Health Smart Solutions

We're dedicated to providing products for healthier homes and communities:

- Completely touchless bottle filling stations
- Touchless coolers and fountains
- Filtered units feature NSF-certified Water-Sentry® filters that reduce lead and other harmful contaminants
- Conversion kits and equipment for "Hands-Free" functions
- Energy-efficient options

Commitment to Innovation

We're always working on new solutions for a healthier, sustainable future, with products that are:

- Meaningful to our customers' specific needs of today and tomorrow
- Thoughtfully designed for an optimal user experience
- Able to evolve with changes in market demand, science and technology
- Environmentally sound; many are sustainably made
