NEW!

Multi-station Drinking Fountain

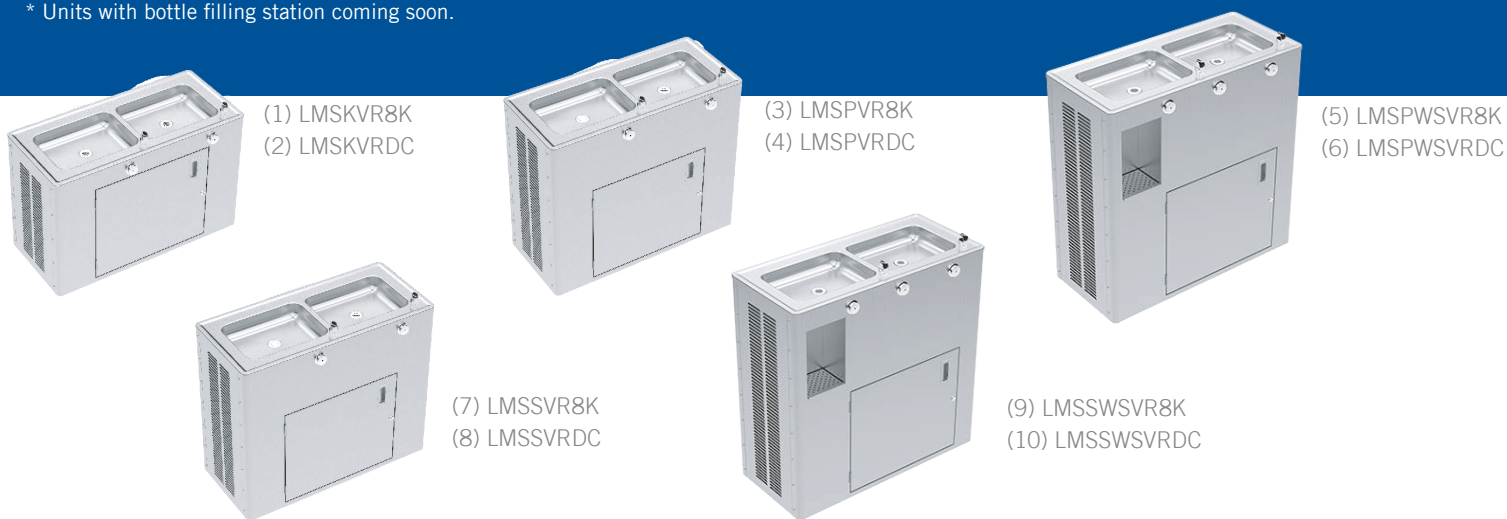

Our new Multi-station Drinking Fountains are ideal for high-traffic applications such as schools, shopping centers, recreational areas and correctional facilities.

Features + Benefits

- Offered in a variety of heights; some models with bottle filling station included.*
- Made with strong and durable, 18 gauge, type 304 stainless steel.
- Ideal for indoor and outdoor service.*
- Vandal-resistant bubblers are keyed in to prevent rotation.
- Easy-to-operate vandal-resistant push-button activation that is built to last.
- Cabinet design allows for the product to be positioned against a wall or away from it; no recess space is required.
- Includes removable panels for optional wall or floor plumbing access.
- Includes 35,000 gallon WaterSentry® Pure filtration system; removes aerobic Mesophilic bacteria and Total Coliforms. Certified to NOM-244.
- Conveniently furnished with universal lock and key; one key can be used with all installations.
- Versatile; ideal for schools, shopping centers, recreational areas and correctional facilities.
- Optional low pressure booster pump. UL and NSF listed.

* Chiller is UL listed for indoor use only.

* Units with bottle filling station coming soon.
